PUMP PONTOONS & ACCESSORIES

DESIGN, MANUFACTURE, TRANSPORT & INSTALLATION

Design Expertise

- > Very experienced design team uses the latest 3D CAD technology
- > Efficient, accurate, on time and on budget
- > Custom designed to any required specifications or environmental conditions

Manufacturing Capabilities

- > State-of-the-art rotomoulding machine for polyethylene pontoons and fittings
- > Highly equipped metal workshop for frames, ramps, walkways, customized parts
- > Concrete pontoon fabrication plus CNC routing

Transport Supply & Installation

- > A Fleet of trucks and cranes available as required
- > Experienced, highly skilled workforce for all facets of construction and installation
- > Road transportable pile driving rigs and barges

Obligation Free Design Consultation

FLOATING WALKWAYS & PLATFORMS

CUSTOM DESIGNS OR OFF THE SHELF

Features & Benefits

- > Interlocking Flotation Modules connect to form any size platform or walkway
- > Relocatable for temporary or permanent multipurpose use
- > Used extensively in mining, water treatment and marine industries
- > Rotomoulded heavy-duty polyethylene to withstand extreme conditions
- > Can sit on land or float on water
- > Maintenance free, non slip, and a wide range of colour options
- > Can be stacked vertically for variable buoyancy and compact storage

Standard Module Sizes

1m long x 0.5m wide x 0.4m deep up to 3m long x 2m wide x 0.4m deep

Accessories

Handrails

Cable Trays

Lighting

Flexible Connections

Pipe Supports

Access Ladders

Gangways

GANGWAYS & BRIDGES

EXPERTLY DESIGNED & BUILT

We have over 25 years experience designing, fabricating and installing gangways and bridges.

Our expertise ensures the right gangway or bridge for any application.

Features & Benefits

- > Light domestic usage through to heavy duty industrial specifications (up to 9kpa)
- > Fabricated from Aluminium or Steel to your required specifications
- > Broad range of protective coatings and flooring options
- > Gangways & Bridges from 1 metre to 50+ metres long
- > Over 25 years experience, designing, fabricating, transporting and installing

Accessories

Kick Plates

Cable Trays

Stair Treads

Hinge & Roller Systems

Overhead Cages / Shelters

Pipe Supports

Sub-Floor Conduits

Handrails

Transition Plates

Gates

Lighting

ROTOMOULDED PIPE FLOATS

ADVANCED DESIGN & PRECISION MANUFACTURED

Features & Benefits

- > Used in many industries; mining, water treatment, aquaculture, dredging etc...
- > Heavy duty, high-impact rotomoulded polyethylene floats
- > Suitable for floating cables, pipes and hoses diameters from 10mm to 630mm
- > Quick-release strap option saves time/money as bolts not essential
- > Convenient storage / security holes
- > Locating pins for ease of installation
- > Extensive colour range and optional foam filled models available
- > Optional passive radar and light reflective stripes

Available Sizes

- 10mm up to 130mm
- 135mm up to 225mm
- 230mm up to 355mm
- 360mm up to 630mm

Obligation Free Consultation

ROTOMOULDED PIPE SLEEPERS

HEAVY DUTY, CORROSION-FREE

Features & Benefits

- > **RAZORBACK** pipe sleepers are ideal pipeline supports for even the harshest conditions
- > Heavy duty, high-impact rotomoulded polyethylene
- > Light weight for cost efficient transport and time saving installation
- > Custom colours include Hi Vis and glow in the dark
- > Can have your company logo moulded into the plastic
- > Screw in bung for water, sand or slurry filling if required
- > Bolt holes for securing to slab or similar if required
- > Easy fit **Slide-Lock** lid
- > Innovative Design, patent pending

Module Sizes

- > 80mm up to 1000mm O.D. pipes

Obligation Free Consultation

HEAVY DUTY STEEL FABRICATION

DESIGNED & BUILT TO YOUR REQUIREMENTS

Above: Heavy duty steel pontoons contract for Port of Gladstone.
Superior's commercial steel division was set up to cater for the resource / mining sector however we can design, manufacture and deliver for any general steel fabrication projects.

Heavy Duty Steel Specific Expertise

- > Highly specialised structural steel design team.
- > Proven fabrication experts include boilermakers and quality assured welders.
- > Our people have proven performance and our customers have trust in our brand.

Features & Benefits

- > Quality Assured to Australian standards
- > Compliant with Tier 1 contractor QA requirements
- > Confined space certified
- > Non - destructive testing
- > Large factory access and transport facilities
- > Surface treatment specialists for marine and acidic environments

Obligation Free Design Consultation
